INTRODUCTION

Marlin Exhibitions are the Hunter region's premier supplier of exhibition and display equipment.

Our professional team combines 'can-do' attitude with a wealth of industry knowledge and experience to offer a broad range of solutions to meet your exhibition and display needs.

Having worked at many State and National venues, the team at Marlin Exhibitions have built strong relationships within the event industry and count many local and national businesses amongst their clients.

Specialising in the deluxe Octanorm shell scheme system, the premium display equipment available in the world at present, Marlin Exhibitions can create a professional and well presented display solution for the smallest launch or staff meeting to a fully boothed Exhibition or Trade Show.

Marlin Exhibitions specialise in the hire and manufacture of:

- Exhibition Booths
- Lighting and Name Boards
- Furniture and Registration Counters
- Static Displays
- Customised Pop Up Banners and Exhibition Display Equipment

In addition to our stock hire items, feel free to contact us to discuss custom displays, exhibition booths and accessories.

Whether you are a one-time exhibitor or a long-time organiser, we look forward to working with you to enhance your company profile at your next event!

FERRARI FORMAL & BRIDAL

EXHIBITION BOOTH SPECIFICATIONS

The Deluxe panel system is the premium display equipment available in the world at the present time, with the Octanorm shell scheme being a must for any exhibitor requiring a professional well presented display.

All panels are constructed from heavy duty, light weight materials.

Panels are constructed from a plywood base covered in white polyvinyl laminate. Panels are supported with aluminium profiles. Profiles are joined together using mechanical tension locks which may not be moved by anyone other than trained exhibition staff.

Height: 2.4m

Width : 1.0m

Infill Colour: White polyvinyl coated panels

Support Poles: Aluminium profiles

The Exhibition Industry is undergoing a complete change in exhibition construction as well as the shop fitting and interior design fields. The current tendency toward open, communicative and event-oriented presentation platforms and sales areas demands flexible wall systems with highly variable functions.

OCTANORM Booth systems satisfy high levels of construction needs in an innovative way as well as complementing the increasing requirements of modern exhibition and interior architecture; they are both easy to set up and allow for individual design.

Plinths and Registration Counters complement this system.

ATTACHING OBJECTS

Paintings and picture frames should hang preferably from museum grade picture hooks firmly fixed to the aluminium support poles or from two wires suspended from the picture rail. Specialised products are available for hire or purchase.

Heavy objects should be placed on Octanorm display plinths or shelving units. Consult one of our sales staff to discuss the huge range of accessories we have to complement all your exhibition needs.

Light weight graphics, pictures and posters can be fixed to walls or display boards with Velcro adhesive patches. It is recommended that the loop component of the Velcro be placed on the display panels with the hook placed on the object being displayed.

Staples, screws, thumbtacks or any other such products **MAY NOT** be used on this style of exhibition paneling. Any damage will be the sole responsibility of the hirer.

CUSTOM EXHIBITION BOOTHS AND ACCESSORIES

Marlin Exhibitions can help you stand out from the crowd and really capture the attention of your potential customers. From pull-up banners to personalised graphics, Marlin can provide you with a plethora of options for promoting your brand with unquestionable impact.

Enhance your standard Exhibition site with personalised graphics that fit directly into the Octanorm system. Made directly by us, we can deliver and install them at any exhibition and even store them for you for use at future events.

Take your branding everywhere you go with portable display options such as pop-up displays and pull-up banners. A great option for those who attend numerous events every year, these banners are great additions to exhibition sites, as well as providing eye-catching displays in offices and showrooms.

In addition to your physical stand requirements Marlin Exhibitions can provide you with branded and personalised merchandise, perfect for giveaways, staff and client gifts, events and special promotions.

Speak to a member of the Marlin Exhibitions team to discuss our wide range of traditional and state-of-the-art products and display systems.

LIGHTING

Light sells! Successful displays require the effective use of light in exhibitions, trade shows, and sales areas.

It is imperative that your presentation platform includes impressive lighting plans which promote communication and sales.

There is a vast range of possibilities available for skilful lighting, whether for special emphasis on individual items, or for general lighting effects.

Long Arm Extension Light

Features 40cm extension arm with fully adjustable rotating cuff and bulb. Ideal for highlighting individual items and for increasing overall brightness levels. May be fitted in any position on top of Octanorm structure or fascia.

Short Arm Extension Light

Features 20cm extension arm with fully adjustable rotating cuff and bulb. Ideal for highlighting individual items and for increasing overall brightness levels. May be fitted in any position on top of your Octanorm structure or fascia.
